APPRAISAL RESIDENTIAL LISTER - BEAVER CO, PA:

Preferably applicants should have some experience doing somewhat related work to data collector position (i.e. census, customer service, face-to-face work with the public, etc.)

Appraisal Residential Listers (Data Collectors) perform exterior inspections of residential properties to ensure property records are accurate and up to date.

This position involves being in the field driving to properties to collect detailed property data and verify the accuracy of previously collected data (such as measurements/dimensions/property characteristics and condition/etc.).

This position may involve talking to property owners about their property or the work we are doing for the Beaver County reassessment.

Position is project based with anticipated start and end dates of the project. If hired, employees may be considered for other project work if it is available at the time this project ends.

Core hours are from 8:00AM until 5:00PM and 40 hours/week.

This is full time position with Tyler Technologies, not Beaver County.

Training will be provided beginning in late March to early April.

Position requires a valid driver's license, proof of insurance, and driving your own vehicle to multiple property locations daily. If hired, the company provides compensation for gas and mileage.

Starting hourly wage range: $16.25 to $18.13. Group benefits including health insurance are also provided.
