

This report contains summary statistics on population subjects from the 2020 Census Redistricting Data (Public Law 94-171) Summary File for Pennsylvania, which was released on August 12, 2021. This report presents data by census tract for a selected county. The 2020 Census Redistricting (Public Law 94-171) Summary Data also has data by blocks, block groups, and other geographic areas, which are not presented in this report.

So that the data can be more easily interpreted by the user, SPC has added the following:

1. The Summary Data provides data for the total population and the population aged 18 and over (i.e., the voting population). This report provides a third population group, namely, the population under 18, which was calculated by subtracting the population aged 18 and over from the total population.
2. Percent of the census tract's total population for each age/race group.

Group quarter population refers to the population in group quarters where people live or stay, in a group living arrangement that are owned or managed by an entity or organization providing housing and/or services for the residents. These services may include custodial or medical care as well as other types of assistance, and residency is commonly restricted to those receiving these services. This is not a typical household-type living arrangement. People living in group quarters are usually not related to each other. Group quarter facilities are categorized as institutionalized and noninstitutionalized.
